

ELF foil laser label

Product information

The double-layer ELF laser label foil is ideal for the production of custom adhesive labels and displays a reliable, permanent adhesion on Polyolefine (PE/PP), slightly oily or powder coated surfaces.

The halogen-free Polyacrylate foil is very resistant to chemicals, temperature and other environmental influences and in case of fire it is self-extinguishing after 15 seconds. Complete cover of high-contrast base colours. labeling and cutting is done with a laser labeling system.

The user can freely define the size and number of labels within the printable area.

External suction system
When laser inscribing ELF laser label foil, you must scrub the exhaust air or route it to the outside (observing statutory provisions) as a precautionary measure against the sometimes strong odours that the machine produces, and to not endanger the health of employees. An external suction system can be connected directly to the MP laser labeling system using an adapter.

Information, conformities and approvals

Article	Order No.	Color	Printable area mm	No. characters/ lines	Software Article	PU pcs.
ELF 120x120 SI/SW	86563002	Silver / Black	119 x 119	66 / 35	A64	100
ELF 120x120 SW/WS	86563050	Black / White	119 x 119	66 / 35	A63	100

Material properties

Polyacrylate II

Adhesive properties

350Acrylate adhesive film with adhesive

Thermal properties

Temperature / temperature range -40 °C - 200 °C / short term: 300 °C

ELF foil laser label

Technical information

Halogen-free

Approvals and operating permits

CSA approval

Classification

ETIM 9: EC001288 || eClass 14: 27144009 || UNSPSC: 39131504 ||
