

mp-EM opt.

Product information

Designed around plotters of mp-PM - The product family can be quickly and easily retrofitted into a full-fledged engraving machine. The new engraving option offers a digital engraving depth display, adjustment aids (zero-positioning), as well as a storage system for the plotter or engraving module not in use at the time. The new spindle generation, together with the depth control, makes the precise setting of engraving depths in 0.025 mm increments now also applies to the engraving option possible.

Scope of delivery

- Engraving head with engraving spindle and digital engraving depth display
- 0.5 mm / 15° graver
- Engraving spindle connector cable
- Control unit (controller)
- Control unit for connector cable
- Vacuum cleaner with extraction hose and conduit holder
- Vacuum cleaner connector cable
- Retaining bracket
- Calibrating bolt
- Power cord
