

Retraction system set

Product information

The retraction system serves as a simple, space-saving alternative to the Murrplastik R-Tec Box-S and creates a length compensation of 150 mm. The system is very suitable for small robots, such as FANUC M20iA or KUKA KR6/KR10.

As long as the hole pattern fits, the retraction system can be mounted directly on the robot or attached with spacer sleeves. If the hole pattern does not match, an additional adapter plate will be necessary for the installation.

Material properties

mod. polyamide PA 6 || Aluminium || Steel ||

Fire properties

Fire classificationacc. to UL94: V0

Technical information

Halogen-free

Retraction system set

Conformity

RoHS (EC Directive 2011/65/EU)

Approvals and operating permits

ROBI approval

Classification

ETIM 9: EC010745 || eClass 14: 27439090 || UNSPSC: 40141764 ||
