

HygienicLine Dynamics systems

Product information

The HygienicLine Dynamics retraction system is manufactured in Hygienic Design and was specially developed for hygienically sensitive industries. The use of electro-polished stainless steel and high-performance plastics makes the surface even smoother and ensures an abrasion-resistant application.

Further advantages:

- Easy cleaning without dirt edges due to Hygienic Design
- Resistance to acids and alkaline
- Use of FDA compliant and detectable material
- System meets the requirements of EG 1935/2004, EG 10/2011 and EG 2023/2006
- Resistance to high temperatures and pressures
- High quality due to the use of stainless steel
- Easy handling and minimization of assembly errors
- Subsequent assembly and disassembly of cables and wires possible
- Good torsional stability and high dynamics ensure longer service life of all components
