# Accessories for mp-TM systems

Product information

Cutters
The cutting blade separates all printable materials. Depending on the type of printer used, paper labels, self-adhesive labels, cardboard or fabric labels and plastic materials, as well as heat-shrink tubing can be cut.

Perforation blade
The perforating blade allows for optional perforation of the materials, in addition to the cutting, so that it may be separated by hand at a later time.

External unwinder
The external unwinder is required for rolls of material that are too large to fit into the printer. It automatically centers the rolls of materials when placed into the equipment and makes the feeding in of heavy rolls possible. Externally wound, as well as internally wound rolls can be processed. The External Unwinder is designed to accommodate the 3-inch mp-TM label rolls. There is one version for the mp-TM EOS1 and one version for the mp-TM A4+M, mp-TM XD4T Twin and mp-TM SQUIX 4/M.

External unwinder for 1" core
The external unwinder for 1" core is suitable for 1" label rolls such as pavonis label rolls and can be used for the mp-TM EOS1, mp-TM A4+M, mp-TM XD4T Twin and mp-TM SQUIX 4/M. The external unwinder for 1" core is suitable for 1" label rolls such as pavonis label rolls.

Internal roller mounting for 1" core
The internal roller mounting for 1" core is necessary for printing TEP and TEG series labels.

Margin stop
The margin stop centers the label rolls and is available for reorder as a spare part.

Information, conformities and approvals

Article	Order No.	PU pcs.
Accessories for mp-TM EOS1		
mp-TM EOS1 cutting blade	86661820	1
mp-TM EOS1 perforation blade	86661821	1
Accessories for mp-TM EOS1/EOS2
